Description:

Stunning, large deep red blooms with a mild fragrance, complimenting rich deep green foliage; great for the garden, containers, or along borders; very disease resistant

Ornamental Features:

Ingrid Bergman Rose features showy lightly-scented dark red flowers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. It has dark green foliage throughout the season. The glossy oval compound leaves do not develop any appreciable fall color. The fruit is not ornamentally significant.

Landscape Attributes:

Ingrid Bergman Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance rose that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Ingrid Bergman Rose is recommended for the following landscape applications;

- General Garden Use
- Mass Planting
- Hedges/Screening
- Accent

Plant Characteristics:

Ingrid Bergman Rose will grow to be about 4 feet tall at maturity, with a spread of 28 inches. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This rose should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments.

This particular variety is an interspecific hybrid.
